

Turning the Tide: Building Trust in Environmental Science

What is your relationship to the natural environment and how has that changed over time?

Are you interested in learning more about the coastal research being conducted at the Chesapeake Biological Laboratory (CBL) and how it impacts you?

Join CBL scientists, President of Calvert County NAACP Branch, Michael Kent, and Patuxent Riverkeeper, Fred Tutman for a conversation about what the natural world means to you, how you are impacted by the environment, and how we can build a long term relationship between these groups. Free lunch will be provided for workshop attendees.
